## SYSTEM FOR PROCESSING TICKET ISSUING DATA IN RESTAURANT

NITSUKO CORP

Inventor(s) : HIRAO TAKUYA

Application No. 08020572, Filed 19960110, Published 19970722

**Abstract:** PROBLEM TO BE SOLVED: To provide a restaurant ticket selling data processing system providing a ticket issuing machine where plural merchandises are selected at a time and an accounting processing is collectively executed.

**SOLUTION:** The data processing system is provided with a data processing means processing an accounting and merchandise order data, the ticket issuing machine issuing tickets and a kitchen output means indicating the production of a merchandise to a kitchen. The ticket issuing machine 11, a data processing machine 12 and a kitchen printer 16 are connected by a communication line and the data processing machine 12 monitors and controls the ticket issuing machine 11 and a kitchen printer 16. A selecting means for successively selecting one or plural order merchandises which a customer requires is provided in the ticket issuing machine 11. A function for successively arraying and accounting-displaying a merchandise name and a price which are selected by the selecting means, successively counting and displaying thrown-in cash, collectively executing the accounting processing, issuing the prescribed ticket

and transmitting respective data to the data processing means.
